Final Journal Publishing Agreement

To,
The Dean / Medical Director / Chief Editor
Dr. G. D. Pol Foundation, YMT Ayurvedic Medical College & Hospital.
P.G.Institute, Institutional Area, Sector 4, Kharghar,
Navi Mumbai, Maharashtra, India - 410210.

Date: 04/09/2021

DR. G.D. POL Foundation YMT AYURVEDIC MEDICAL COLLEGE & HOSPITAL

Its our immense pleasure to get associated with prestigious Dr. G.D. POL foundation, YMT Ayurvedic medical college & Hospital. P.G.Institute, Navi Mumbai for publishing journal in electronic media and other specified activities as mention in quotation in this agreement.

We are pleased to sign a contract for **3 years** for publishing of Journal (Title name of journal to be proposed by editorial team and chief editor). Kindly please also do mention the periodicals too (Annual, Biannual, Quarterly, Bimonthly, Monthly) in RNI, ISSN(electronic Media) according to international standards of journal publications.

- 1) A systematic contract between **Dr. Kaushik Jadhav, Business Executive of Ketaki Prakashan Private Limited & Dr. Sanjeev Yadav, Dean, Dr. Jai Kiran Kini, Director Research & Chief Editor** of Dr G.D. Pol Foundation YMT Ayurvedic Medical College & Hospital. P. G. Institute in presence of editorial board of journal and publisher team.
- 2) **A contract of 3 years will be signed with us.**
- 3) Editorial team will work in unison with publisher for finalization of articles to be published in journal.
- 4) Biannual issue of RNI/ISSN (electronic media) will be published maintaining international standards of publications.
- 5) Title registration for journal publication under registrar of Newspapers for India is mandatory for print media of journal to get published.
- 6) Its also mandatory not to skip any Periodical issue of a journal as RNI , ISSN, Indexing portals like Pubmed do shoot queries and the whole process starts from initial phase of RNI,ISSN registration irrespective of the journal published previously.
- 7) It's a compulsory criteria for chief editor of a journal to hold the post for minimum 3 years for a journal to get indexed in pubmed.
- 8) All rights of journal modifications will be in hands of chief editor of journal.
- 9) Once plagiarism check of final selected articles to be published done by plagiarism software in unison with editorial team henceforth, publisher is not responsible for any plagiarism of articles in journal.

2...

- 10) Once journal is published we would add all articles to metadata system crossref so that digitally article would get DOI number which would make simple for citations and indexing of the articles.
- 11) As per international standards of journal publications if 10 articles in a journal are present this would be systematic breakdown of articles 3-4 original research articles, 2-3 case reports, one editorial article, 2-3 review articles.
- 12) Minimum 5 members editorial team with registered institutional ethics committee should be present as per ISSN guidelines for journal publications. It takes minimum 30 days to maximum 60 days to get registered at electronic portal of ISSN that means the E-ISSN journal is published ahead of print Version.
- 13) All documents should be submitted to publisher an attested original copies with institution stamp as while licensing of RNI some documents are mandatory.
- 14) RNI takes minimum 3 Months to get verification of title and another 3 months for registration of title after declaration of title. So in all complete 6 - 9 months it takes RNI to get registered.

For 1st Year

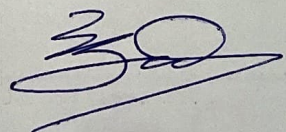

- 15) 1st instalment professional fee should be deposited immediately post signing an agreement for journal publication.
- 16) 2nd instalment of professional fee should be deposited after Title Verification and Website of journal is completed.
- 17) Final 3rd instalment of Professional fee should be deposited after launching of journal in electronic ISSN format.

For 2nd Year

- 18) Website maintenance professional fee should be deposited in month of January and Second instalment in month of June while 3rd instalment in month of October .

For 3rd Year

- 19) Third year onwards 10% increment in maintenance charges for website as applicable.
- 20) Website maintenance professional should be deposited in month of January and Second instalment in month of June while 3rd instalment in month of October .
- 21) As Professional fee is in installment pattern if institution fails to do a payment Publisher has right to stop the work for providing applied services for journal.
- 22) Indexing and DOI metadata analysis along with website maintenance is continuous process so the professional fee mentioned in quotation will be for a year irrespective of periodicals(Annual, Biannual, Quartetly) of journal.
- 23) It takes minimum 10 Issues provided institute follow all rules and regulations of journal Publications to start indexing in Pubmed as all scrutinizing process is strict.
- 24) Some Indexing portals are in paid as well as unpaid format like Index Copernicus, Hinari Who(By default we are providing unpaid indexing services); If institution wants paid indexing services they have to pay separately as per cost mentioned on indexing portals
- 25) For Normal index to begin with it takes minimum 2 published issues. So when 3rd issue of journal is out an article from 1st issue might get indexed . sometimes an article from 1st issue get indexed right after few months post publications.
- 26) Indexing depends on various factors like citations, Plagiarism, Following rules and regulations of international journal Publications.
- 27) A final journal publishing agreement will be on ledger paper of 2 original Documents Signed by Respective Representative; one will be with the institution and other will be with publisher.
- 28) The Professional fee should be deposited or transfer on account payee only namely **Ketaki Prakashan Private Limited.**

| Sr. No. | Particulars | Quantity | Cost |
|---------|---|----------|---|
| | articles to be published. 4) Crossref Registry DOI number for final selected articles by chief editor of the journal to be published Indexing On various Portals. 1) Hinari WHO, 2) Scopus. 3) Copernicus, 4) Google Scholar. 5) Medline, 6.) PUBMED. | | |
| 4. | Website Maintenance includes. 1) New Customised Mobile Responsive Design. 2) Back end admin panel to upload new Journal in PDF format. 3) Manage Author and Reviewers Registrations. 4) Manage Abstract Submitted by Author. 5) Author and Reviewer separate logins and dashboard. 6) Renewal cost domain and hosting services. 7) Plagiarism Check of Articles for publication Finalized by Editorial Team. *8) Galley Proof for Journal to be Printed in Hard Copy. Indexing Database. 1) Scopus, 2) Copernicus, 3) Google Scholar 4.) Medline 5) PUBMED | | 63,560=00 Per Annum (These Charges are applicable to the Next Year Post one time Hosting of the Website) |

On above cost 18% GST is applicable Extra.

***Notes:**

- 1) For print media (hard copy) of journal publications - Quotation will be drafted as per institution specifications.
- 2) Columns **highlighted in bold** are the services selected by institution.

Thanking you.

Yours faithfully,

For **Ketaki Prakashan Pvt. Ltd.**

Chandrakant Jadhav

Instalment Payment Period

► For 1st Year

- 1.) Signing of journal publishing agreement - Inr. 33,330=00.
- 2.) After title got verified in RNI registry(RNI verification) - Inr. 33,330=00.
- 3.) After electronic – ISSN is registered - Inr. 33,330=00.

► For 2nd Year

- 1.) First instalment in month of January – Inr. 25,000=00.
- 2.) Second instalment in month of June - Inr. 25,000=00.
- 3.) Third instalment in month of October - Inr. 25,000=00.

► For 3rd Year

- 1.) First Instalment in month of January – Inr. 27,500.
- 2.) Second instalment in month of June – Inr. 27,500.
- 3.) Third instalment in month of October – Inr. 27,500.

Whitelist: --

Ayurveda is one of the oldest, most renowned and worldwide accepted traditional system of medicine. There is global attraction towards production and use of eco-friendly cosmetic products prepared using potent herbs mentioned in ancient Indian system of medicine, Ayurveda.^[0]▶ The present study aims at formulation of polyherbal cosmetic cream for the use of moisturising, nourishing and cure of numerous skin disorders.

The methodology involves selection of promising herbs stated for healthy skin in Ayurveda and reported as antioxidant in modern science; preliminary phytochemical screening of alcoholic extracts of Haridra, Tulasi and Triphala; formulation of cream with herbal extracts, Alovera juice, Mentha piperita oil and minimum quantity of chemicals;^[0]▶ evaluation of formulations for various physical parameters followed by antibacterial and antifungal activities.

^[0]▶ The results indicates that formulated cream is stable, effective and#therefore, can be tested further for its performance.

The largest organ of the body is skin and it forms an ultimate shielding barricade against environmental stress enhancers such as transmittable pathogens, ultra-violet radiations, dust and chemical agents which causes ageing and other infections. The condition of general inner health and aging can be judged by skin¹. Excessive exposure to UV radiations causes Erythema, edema, suntan, hyperplasia, early aging, and skin cancer ² and is also responsible for generation of free radicals ^{3, 4}. Increasing rate of problems related to intrinsic or natural skin ageing and extrinsic skin ageing caused due to exposure to environmental factors, side effects and high cost of chemical based skin care products motivated scientific community to identify effective, eco-friendly, safe and cheaper sources for preparation of skin care products. Skin care properties of several plants have been mentioned in Ayurveda and plants are being used since ancient time for this purpose. Nowadays there is great demand of cosmetic

products prepared using herbs, herbal extracts or phyto-compounds as these products not only provide beauty and better appealing appearance but also provides medicinal benefits such as immune enhancement, nutrient enrichment, antibacterial, antifungal, anticarcinogenic, and anti-inflammatory biological actions. Demand of plant derived compounds such as curcumin, catechins, ascorbic acids, gallic acids, cinnamic acids, quercetin, alpha and beta carotene, epicatechins, luteolin, fatty acids and complex polysaccharides etc.^[0] for preparation of cosmeceuticals is increasing day by day due to their multidimensional cosmetic and medicinal properties⁵⁻¹⁰^[0]. Considering all these facts, the medicinal plants for the study were selected based on literature review.^[0] The current research has been planned to carry out preliminary phytochemical screening of alcoholic extracts of Haridra, Tulasi and Triphala; formulation of cream with herbal extracts, Alovera juice, Mentha piperita oil and minimum quantity of chemicals; evaluation of formulations for various physical parameters followed by antibacterial and antifungal activities.

The plant materials were procured from Shri Shail Herbs Pvt. Ltd.,^[2] a reputed traders at Nagpur and authenticated by Principal Scientific Officer (Botanist), Mahatma Gandhi Institute for Rural Industrialization (MGIRI), Wardha. Alovera leaves were collected from the garden of MGIRI. Mentha piperita oil and all the chemicals of Merk co. were procured from Maharashtra Scientific Co., Wardha.^[0] Marketed formulations used were Himalaya kesar, alfalfa face cream and Patanjali neem, tulsi facewash.

^[0] Preparation of ethanolic extracts and preliminary phytochemical screening:

^[0] The rhizome of curcuma longa, leaves of Ocimum sanctum Linn, fruits of Phyllanthus emblica Linn, Terminalia bellirica (Gaertn) Roxb, Terminalia chebula (Gaertn) Retz, were cleaned properly with water, dried and powdered using an electric mixer, sieved and stored in an air tight container for further use.^[0] All the powdered herbal drugs (5g each) were soaked in

ethanol separately for 24 hours with constant shaking for first 8 hours, filtered, extracts were subjected to preliminary phytochemical screening using standard methods^{11, 12, 13}.

Formulation of polyherbal cosmetic cream:

Preparation of Oil Phase: Oil phase was initialized by adding Stearic acid (17 g) in heat resistant glass beaker of capacity 250 ml and placed on hot water bath for heating, after complete dissolution of stearic acid, 0.5 g of potassium hydroxide was added and dissolved with continuous stirring, 0.5 g of Sodium carbonate was added and stirred continuously to avoid lumps. This process was carried out by maintaining the temperature at 75°C.

Preparation of Aqueous Phase: The aqueous phase was initialized by adding 10 ml ethanolic extract (4ml Triphala, 3ml Turmeric and 3ml Tulsi extract) in 6g of glycerine into another glass beaker and placed it on hot water bath. Aloe Vera juice (66 ml) was added in a mixture with constant stirring followed by addition of Triethanolamine (1.2 g). This process was also carried out by maintaining the temperature at 75°C.

Addition of Aqueous Phase to Oil Phase: The aqueous phase was poured in oil phase slowly by continuous stirring at 75°C. Methyl paraben and Propyl paraben (2g each) were added into the mixture.^[0] The mixture was allowed to cool to room temperature by continuous stirring. Mentha piperita oil (1g) was added after complete cooling, then transferred the cream in a container sterilized with 99.5% ethanol.^[0] Then the cream was evaluated for various physical parameters.

^[0] Evaluation of cream for physical parameters:

^[0] Assessment of cream was done for various physical parameters as per official guidelines.

Appearance: The appearance of the Cream was found by observing its color, odour and texture etc.

pH: The pH of cream was determined with the help of Auto digital pH meter at 28°C by preparing 10% solution of cream, the pH meter was calibrated and measured pH was found to be 7.5.

Determination of Homogeneity:^[0]▶ The prepared formulation was tested for the homogeneity by visual appearance and by touch.

Spreadability test: 500mg of the cream was sandwiched in between two glass slides. Weight of 100gm was placed on upper slide of glass slide. The weight was removed and extra cream was scrapped off. The lower slide was fixed on board of apparatus and upper slide was fixed with non-flexible string on which 20g load was applied. The time taken by upper slide to slip off was noted.

$$S = m \times l/t$$

Where, S- spread ability

m- Weight tied to upper glass slide.

l- Length moved on a glass slide.

t- Time taken.^[0]▶

The Spreadability test was carried out in in triplicate and the average of the readings was recorded.

Smear type: The test was conducted after the application of vanishing cream on the skin and smear formed was Non-greasy.

Emolliency test: Emolliency of cream was checked by application of fixed amount of cream on skin and found that no residue left after application.

Dilution test:^[0]▶ The cream was diluted with water and found stable as water is the dispersion medium indicating o/w type of cream.

Dye solubility test:^[0]▶ The cream was mixed with the water soluble dye (amaranth) and observed under microscope.^[0]▶ The continuous phase appears red in color, indicating o/w type cream as water is in the external phase and the dye will dissolve in it to give color¹⁴.

Viscosity:^[0]▶ The viscosity was determined at 25°C using a Brookfield Viscometer (DV II+ Pro model), spindle number S-64 at 20rpm speed.

^[0]▶ Evaluation of anti-bacterial activity of formulated polyherbal cosmetic cream:

To test the antibacterial activity of newly formulated polyherbal cosmetic cream, the gram-positive bacteria *Staphylococcus aureus* was selected.^[0]▶ Before starting the test, the bacterial strain was cultured in nutrient agar plates and incubated in incubator for 18 to 24 hrs at 37°C temperature to obtain bacterial colonies.^[0]▶ After overnight incubation, colonies on the plates were selected with autoclaved sterile inoculating loop of inoculating needle and transferred it to a glass test tube of sterile physiological saline which was prepared for test and mixed it thoroughly. The growth of bacteria is measured by the turbidity of saline solution. The turbidity of bacterial suspension was compared with 0.5^[0]▶ Mc Farland standard solution which produces turbidity equivalent to 1.5×10^8 CFU/ml (Colony forming units).^[0]▶ Antimicrobial susceptibility of formulated cream was tested by using a well-diffusion method (National Committee for Clinical Laboratory Standards).^[0]▶ The formulations were tested on Mueller Hinton plates to detect the presence of bacterial growth.^[0]▶ All plates were inoculated with the test bacteria i.e.^[0]▶ *Staphylococcus aureus* which have been previously adjusted to 0.5^[0]▶ Mc Farland standard solution turbidity using pour plate method.^[0]▶ The inoculated plates were dried for around 5 mins to remove excess moisture if any in laminar air flow chamber by placing the plates near to burner to avoid any contamination.^[0]▶ 50ul aliquots of each test and standard marketed cream with different concentrations (0.1^[0]▶ mg/10ml, 0.2^[0]▶ mg/10ml and 0.3^[0]▶ mg /10ml)

were added into each well after the inoculation of each plate with bacteria. The well was made on agar by using sterilized cork borer.^[0] The plates were sealed, labelled and placed in an incubator at temperature of 37°C for 24 hours.^[0] After 24h of incubation, each plate was observed for inhibition zones.^[0] Inhibition zone was measured by using ruler (Scale). The zones were measured in millimetres and the reading was noted down.^[0]₅

Evaluation of anti-fungal activity of formulated polyherbal cosmetic cream:

^[0] The fungal organism *Saccharomyces cerevisiae* was selected to study the anti-fungal activity of prepared vanishing cream.^[0] The fungal organism was cultured in Potato dextrose agar medium at 27°C room temperature for 3-5 days. After that the colonies of *S. cerevisiae* were observed after 5 days and they were diluted further and compared with 0.5 Mc Farland which were prepared earlier (which is equal to 1.5×10^8 CFU/ml). The same procedure of antibacterial activity test were followed for antifungal activity testing of newly prepared cream, only the organism and agar were changed.^[0] All plates were inoculated with the test fungi i.e. *S. cerevisiae* which have been previously adjusted to the 0.5 Mc Farland standard solution by pour plate method in PDA medium.^[0] Cream anti-fungal susceptibility was tested by using well-diffusion method (National Committee for Clinical Laboratory Standards).^[0] 50 µl aliquots of each test and standard marketed cream formulations with different concentrations (0.1 mg/10ml, 0.2mg/10ml, and 0.3mg/10ml) were added into each well after the inoculation of the plates with fungi. The well was made on agar by using sterilized cork borer.^[0] The plates were sealed, labelled and placed in an incubator set at 22°C for 4-5 days.^[0] After 5 days of incubation, each plate was observed for inhibition zones. Inhibition zone was measured by using ruler (Scale). The zones were measured in millimetres and the reading was noted down.

Preliminary phytochemical screening:

The results indicate that alkaloid and tannins are present in extracts of all the herbs. Flavonoids are present in the extracts of *Curcuma longa*, *Terminalia chebula*, *Terminalia bellirica*, *Aloe barbadensis* Mill. Saponins are present in the extracts of *Ocimum sanctum* Linn and *Aloe barbadensis*. Steroids are present in the extracts of *Ocimum sanctum* Linn and *Terminalia chebula*. Triterpenes are present in *Curcuma longa*, *Ocimum sanctum* Linn, *Terminalia chebula* and *Aloe barbadensis* Mill (table 1).

Table 1: ⁽⁰⁾ Preliminary phytochemical screening of alcoholic extracts

| S.N. | Plant Part | Alkaloid | Tannin | Flavonoid | Saponin | Steroid | Triterpene |
|------|--|----------|--------|-----------|---------|---------|------------|
| 1. | Turmeric (<i>Curcuma longa</i>) | + | + | + | - | - | + |
| 2. | Tulsi (<i>Ocimum sanctum</i> Linn) | + | + | - | + | + | + |
| 3. | Amla (<i>Phyllanthus emblica</i> Linn) | + | + | - | - | - | - |
| 4. | Hirda (<i>Terminalia chebula</i>) | + | + | + | - | + | + |
| 5. | Behada (<i>Terminalia</i>) | + | + | + | - | - | - |

| | | | | | | | |
|-------------------|-------------------------------|---|---|---|---|---|---|
| 6. ^[0] | bellirica) Aloevera | + | + | + | + | - | + |
| | (Aloe barbadensis Mill) | | | | | | |

The pharmaceutical, cosmetic, nutraceutical industries are using flavonoids in preparation of their products as flavonoids have been reported to inhibit the production of superoxide radicals^{#16, 17}, to suppress lipid peroxidation¹⁸, a process# responsible for inflammation, along with ageing^{19,20}^[0]. Serum flavonoid content of flavonoids improves dermal microcirculation, enhancing supply of oxygen and nutrients to the skin, leading to improved skin structure, texture, and water homeostasis²¹^[0]. Flavonoids reduce protect skin by absorbing UV rays and provide a sunscreen effect²².#

Physical analysis of formulated cream:

^[0]▶ The prepared formulation comply with parameters as per official guidelines^{23, 24, 25} and the results are presented in Table 2.

Table 02: Evaluation of formulated cream for physical parameters

| S. No. ^[0] ▶ | Physical parameters | Test formulation |
|-------------------------|---|------------------|
| 1. | Appearance | Smooth and shiny |
| 2. | Colour | Greenish white |
| 3. | Odour | Pleasant |
| 4. | pH | 7.5 |
| 5. | Homogeneity; ^[0] ▶ By visual and touch | Graceful |
| 6. | Spread ability | 10sec. |
| 7. | Type of Smear | Non-greasy |
| 8. ^[0] ▶ | Emolliency | No residue left |
| 9. | Viscosity | 27025cps |
| 10. ^[0] ▶ | Dilution test | o/w type |
| 11. ^[0] ▶ | Dye solubility Test | o/w type |

The results mentioned in table no. 02 indicate that the formulated cream passes the physical parameter tests as per official guidelines^{23, 24, 25}.

Antibacterial and antifungal activity of polyherbal cosmetic cream

#

The formulated polyherbal cosmetic cream was evaluated for antibacterial activity against gram positive *S. aureus*. The antifungal activity was tested against *Saccharomyces cerevisiae*. The results of antibacterial activity were compared with marketed formulation (Table 3 and Figure 1-6). It showed maximum growth of inhibition at 0.3mg/10ml concentration. The prepared cream exhibited better antibacterial activity against *S. aureus* (9 mm) than marketed formulation (8 mm). It also exhibited maximum antifungal activity (12mm) at 0.3mg/10ml concentration. The results shows that the prepared formulation acts as an effective antibacterial, antifungal cream (Table 3 and Figure 1-6). The exhibited antibacterial and antifungal activities may be attributed due to presence of bioactive phyto-constituents of 6 herbs used in the prepared formulations.

Table 03: Antibacterial and antifungal activity of vanishing cream

| Sr.No | Concentration (mg/10ml) | Extent of inhibition (mm) | | |
|-------|----------------------------|---------------------------|----------|--------------------------|
| | | Staphylococcus aureus | | Saccharomyces cerevisiae |
| | | Test | Marketed | Test |
| 1 | 0.1 | 5 | 4 | 9 |
| 2 | 0.2 | 8.5 | 6 | 10.5 |
| 3 | 0.3 | 9 | 8 | 12 |

In the present study polyherbal cosmetic cream was formulated, evaluated for various physical parameters, antibacterial and antifungal activities. The results indicated that the formulations passed pharmaceutical physical parameters and exhibited significant

antimicrobial and antifungal activities.^[0] The formulated polyherbal cream provides nourishment, moisture and protect the skin against various environmental factors due to the presence of various phyto-constituents present in the extracts of six herbs used in the preparation of cream.

MASTER SERVICE AGREEMENT

This Master Services Agreement executed on this _____ day of January 2023 (the "Effective Date") by and between Herbolab India Pvt. Ltd., a company incorporated under the Companies Act, 1956, having its principal office F-15, 6th Floor, Commerce Centre 78, Tardeo Road, Mumbai Maharashtra-400034 (hereinafter referred to as "Sponsor", which expression, unless repugnant to the subject or context therein, shall mean and include its affiliates, employees, assignees, subsidiaries, nominees, agents & successors-in-interest) of the FIRST PART.

AND

YMT Ayurvedic Medical College & Hospital, is MUHS recognized, NCISM affiliated Healthcare Institute & Research Centre having its registered office at Dr.- G.D Pol Foundation, Institutional Area, Sector-4, Kharghar, Navi Mumbai, Mumbai Suburban, Maharashtra -410210 represented through its Research Director Dr.Jai Kini (India hereinafter referred to as Healthcare Institute & Research Centre or YMT; which expression, unless repugnant to the subject or context therein, shall mean and include its affiliates, employees, assignees, subsidiaries, nominees, agents & successors-in-interest) of the SECOND PART.

RECITALS:

for  28/03/2023
 V.D. SANJEEV YADAV
 PRINCIPAL
 Dr. G. D. POL FOUNDATION
 M.T. AYURVEDIC MEDICAL COLLEGE AND HOSPITAL
 Institutional Area Sector - 4,
 Kharghar, Navi Mumbai - 410 210..

WHEREAS.

- i. Sponsor is an Ayurveda products company, engaged inter alia in the business of developing, manufacturing, distributing and marketing of ayurvedic Products in India.
- ii. **YMT Ayurvedic Medical College & Hospital** is an organization engaged inter alia in the business of undertaking clinical trials and allied services for the pharmaceutical industry.
- iii. YMT has represented and warranted to Sponsor that it has the necessary skill, competence, experience, expertise, and necessary facilities/infrastructure to provide the services contemplated under this Agreement.
- iv. YMT has also represented that it has obtained and shall obtain all licenses, authorizations, statutory approvals and permissions required or as may be required under law for providing the services contemplated under this Agreement and that all such licenses, authorizations and permissions are in full force and effect, at present and during the term of this Agreement.
- v. AND Sponsor has agreed to engage YMT on a non-exclusive basis for providing the services contemplated under this Agreement, subject to the terms and conditions contained herein.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL COVENANTS SET FORTH HEREIN THE PARTIES AGREE AS FOLLOWS:

ARTICLE 1: SCOPE OF THE AGREEMENT

- 1.1 During the term of this Agreement, the terms and conditions herein contained shall govern the services to be provided by YMT to Sponsor under any subsequent individual agreement for specific services to be rendered, referred to as a "Project Contract." As a general form of contract, this Agreement allows the parties to contract multiple projects through the issuance of different Project Contracts (template attached as Annexure - 01) without having to renegotiate the basic terms and conditions contained herein.
- 1.2 The specific details of each clinical trial (each such Study is hereinafter referred to as "Study"), including but not limited to timelines and the Agreed Price (as hereinafter defined) shall be negotiated in good faith and agreed upon in the Project Contracts entered into between the Parties from time-to-time and on a product-to-product basis before commencement of a Study with respect to that particular product.
- 1.3 Sponsor and YMT acknowledge and agree to the 'Role and Responsibilities attached to this Agreement as an Annexure-02. The project can be partly or fully performed by YMT and based on project contract, this 'Role and Responsibilities' will be applicable.

ARTICLE 2: STATEMENT OF WORK

- 2.1 YMT shall conduct the Study, at Clinical Sites (Hospitals, Nursing homes, Clinics), of such products as Sponsor may specify in writing from time to time, in accordance with the terms of this Agreement, the applicable Project Contract, any applicable Protocol for the Study, Good Clinical Practices (GCP), Good Laboratory Practices (GLP), the ICH Guidelines, AYUSH Guidelines and all applicable laws, rules, guidance's, regulations and the local country where the Study is conducted and with the standard of care customary in the area of clinical research for pharmaceutical industry. YMT shall conduct each Study in accordance with its policies which it represents are not inconsistent with the terms of this Agreement. YMT shall assign enough qualified personnel to complete each Study in accordance with the terms of this Agreement, any applicable Project Contract, and any applicable Protocol.

Dr. V. D. SANJEEV YADAV
PRINCIPAL
Dr. G. D. POL FOUNDATION
AYURVEDIC MEDICAL COLLEGE AND HOSPITAL
Institutional Area Sector - 4,
Kharghar, Navi Mumbai - 410 210..

- 2.2 All changes, alterations and/or modifications in the Protocol shall be signed by both YMT and Sponsor and shall be deemed incorporated into the Protocol; provided, however, if any such changes, alterations and/or modifications in the Protocol require a change to the budgetary and/or payment terms of the Project Contract, then any such changes, alterations and/or modifications to the Protocol shall be subject to an amendment to the Project Contract. In addition, if, pursuant to the policies of the Ethics Committee (the "EC"), any changes, alterations and/or modifications to the Protocol require the approval of the EC, then YMT shall ensure prompt approval. Sponsor shall have the right at any time and from time to time to initiate changes, alterations and/or modifications to the Protocol as Sponsor may deem necessary or appropriate, including, without limitation, suspending the Study temporarily or permanently.
- 2.3 The Protocol will specify the Study design, objectives, inclusion and exclusion criteria, procedures for reporting adverse events, statistical analysis and other relevant issues.
- 2.4 YMT shall ensure that no subject is enrolled in a Study unless and until it has received and certified the same in writing to Sponsor documentation evidencing that the IEC has reviewed and approved the Protocol and the Informed Consent Form. YMT shall ensure that all subjects follow all the Protocol requirements.

ARTICLE 3: TERM

- 3.1 The term of this Agreement shall commence on the date of execution and shall be valid for a period of FIVE (5) YEARS from the Effective Date, subject to the termination provisions of Article 11. The term may be extended or amended by express mutual consent of the parties conveyed in writing.

ARTICLE 4: CONFIDENTIALITY

- 4.1 YMT agrees that all information given to YMT or its officers, directors, employees, investigators and agents by or on behalf of Sponsor shall be kept strictly confidential by YMT and its officers, directors, employees, investigators and agents and shall not be published or disclosed to a third party without the prior written consent of Sponsor, except as required by law. YMT further agrees:
- (a) not to use such information for any purpose other than the purposes set forth in this Agreement.
 - (b) to treat such information as it would its own proprietary and confidential information that it does not want disclosed; and
 - (c) to take all available precautions to prevent the disclosure of such information to any third-party without the prior written consent of Sponsor.
- 4.2 The provisions of this Agreement shall not prevent YMT from disclosing any information where it can demonstrate and document that such information:
- (a) was in its possession with full right to disclose, prior to receiving it from Sponsor, or
 - (b) is or subsequently comes into the public domain other than by breach of its obligations hereunder, or
 - (c) is independently developed or lawfully received by it from a third party without restriction on disclosure or use, or
 - (d) is disclosed to YMT by a third party who YMT believes is not under any obligation of confidentiality to Sponsor.

PRINCIPAL
Dr. G. D. POL FOUNDATION
YMT AMRVEDIC MEDICAL COLLEGE AND HOSPITAL
Institutional Area Sector - 1
Kharghar, Navi Mumbai - 410210.

- 4.3 The obligation of confidentiality shall survive the termination of this Agreement up to 1 years from the date of expiry of this Agreement

ARTICLE 5: TIME FRAME

- 5.1 Subject to IEC approval of the Protocol and informed consent form, signed acceptance of the Project Contract, and the shipment and receipt of investigational product, YMT shall deliver a copy of the Preliminary and Final Reports to Sponsor as per the timelines and requirements specified in the Project Contract.

ARTICLE 6: REGULATORY

- 6.1 YMT shall obtain (wherever necessary) and is responsible for Indian regulatory permissions (DCGI and/or AYUSH). The cost of application and processing fees will be incurred from SPONSOR at actual. YMT is responsible for permissions related to the study including IEC approval and obtaining subject informed consent relating to the Study.
- 6.2 YMT agrees to perform the Study and prepare its report strictly in accordance with the regulatory guidelines of the country or regulatory agency to which such Study shall be submitted and as such specified in the data collection form or Protocol, prior to the start of the Study.
- 6.3 YMT shall ensure that it and any person involved in or with the Study or who provides services under this Agreement have not been and are not:
- (a) debarred or the subject of debarment proceedings by the FDA pursuant to Section 306 of the Federal Food Drug & Cosmetic Act of the United States.
 - (b) disqualified as an investigator pursuant to 21 CFR Section 312.70 or to any applicable laws;
 - or
 - (c) under any judicial, administrative or professional review.
- 6.4 YMT shall notify Sponsor within seven (7) days, in receipt of communication letter, in writing of any AYUSH/DCGI regulatory body or other government inspection or inquiry concerning any Project Contract conducted for Sponsor by YMT.
- 6.5 Upon request by Sponsor, YMT shall cooperate with the request, inquiry, investigation, audit or proceeding with only one governmental regulatory authority namely, AYUSH/DCGI, which would be free of cost. However additional compliance carried out with any other regulatory body for the same study would not be free of cost. The Sponsor should notify the YMT of any other additional Regulatory market/ authority. YMT has the authority to recover the expenses involved in procuring any additional documents and in additional audit that may be required for such a submission subject to YMT produces relevant supporting documents and the same are approved by the Sponsor. The expenses incurred for additional audit would be charged based on per man per hour cost, subject to prior written approval of the Sponsor. Except as otherwise provided to YMT in writing, Sponsor shall retain the right and the obligation to make all required reports with respect to the Protocol to any other regulatory authority; provided, however, that YMT shall, provide Sponsor with written notice at a reasonable time before such report may be necessary, advisable or required.

ARTICLE 7: MONITORING

- 7.1 Sponsor is free to depute its representatives for monitoring the Study by giving reasonably sufficient notice of their arrival to YMT.
- 7.2 Sponsor reserves the right to review or inspect or request copies of data, information and

of YMT's obligations under this Agreement, or (c) any deviation from or failure to follow the instructions laid down in the approved labeling information of the IPs, whether such failure is by YMT, its officers, directors, employees or agents, by a subject of the Study, or by any other third party. Notwithstanding the foregoing, in no event shall Sponsor have any liability for (i) any negligence, gross negligence or willful misconduct by YMT or its officers, directors, employees or agents; or (ii) any adulteration of the IPs after they have been shipped to YMT.

- 9.2 Notwithstanding any COA, promptly after its receipt of each shipment of IPs, YMT shall inspect such shipment and notify Sponsor of any shortage or non-compliance of the IPs with any packing slip or the terms of this Agreement, the Protocol or the Project Contract. YMT shall promptly inform Sponsor, in writing, of any such shortage or non-compliance, and Sponsor shall take prompt action to correct the same, at Sponsor's sole cost.
- 9.3 YMT shall indemnify, defend and hold Sponsor and its officers, directors, employees and agents harmless from any and all liabilities, losses, damages and claims arising out of: (a) any breach by YMT of its obligations under this Agreement; (b) any negligence in the performance of YMT's obligations under this Agreement, (c) any deviation from or failure to follow the instructions laid down in the approved labeling information of the IPs, whether such failure is by YMT, its officers, directors, employees or agents, by a subject of the Study, or by any other third party, and (d) all other acts and omissions of YMT, its officers, directors, employees or agents, including but not limited to claims from volunteers, costs of fresh studies, and all activities performed / services rendered by YMT, except to the extent stated in Clause 9.1.
- 9.4 Further, Sponsor shall certify to YMT that the IP is manufactured under GMP conditions.
- 9.5 Sponsor warrants to YMT that no clinical supplies or dosage form constituting or being part of any shipment of IPs now or hereafter made to YMT in connection with the Study covered by this Agreement will be mislabeled. Sponsor will attest that the clinical supplies (including any reference products used in the Study) provided by Sponsor are identical in content to the description provided in the Protocol if blinded formulations are to be used or are identical to the label description for open-label formulations if they are to be used. The Sponsor will provide the investigational products and Certificates of Analysis to YMT at least 7 days before the clinical conduction of the study.
- 9.6 It is the responsibility of Sponsor to define the storage requirements and other relevant characteristics of the IPs.
- 9.7 YMT agrees to ensure that all Study drugs are stored under appropriate conditions in a locked, secured area and to maintain complete up to date records showing dispensing and returns of all Study drugs at clinical trial site.
- 9.8 Sponsor shall be responsible for providing enough quantity of IPs of the same batch/lot to be retained at clinical trial site after completion of study. If requested, YMT will retain samples of the test and reference products submitted by Sponsor up to One (1) year or as required by Sponsor
- 9.9 Return of Drug Supplies: if clause 9.8 is not applicable in such case, after the completion of a Study or the early termination of a Study, YMT shall promptly either return or destroy any unused drugs, as directed by Sponsor, together with a written inventory of the unused drugs, as directed by Sponsor.
- 9.10 Non-Diversion; Labeling: All drugs supplied to YMT shall be administered to the subjects in accordance with Clause 2.4 of this Agreement and in accordance with the Protocol. In no event shall any drug supplied under this Agreement be used by YMT for any purpose other than as expressly permitted by this Agreement. YMT shall use only the labeling for the drugs

failure to comply with any material provision of this Agreement. Compensation/costs payable in such a case will be as per mutual agreement or as per the directive of the arbitrator(s).

- 11.4 The termination or curtailment of this Agreement shall not relieve either party of its obligations to the other in respect to:
- Maintaining Confidentiality
 - Obtaining Consent for Advertising or Publications
 - Indemnification
 - Compensation for Services Performed
 - Appropriate Reporting of any Data Obtained
- 11.5 Each of Sponsor and YMT shall have the right to terminate any Study under this Agreement where they deem such termination necessary:
- In the interest of subject safety.
 - To comply with the requirements of any government agency, board, or department.
 - To comply with the decision of any judicial authority; or
 - To comply with the decision of the IEC.
- 11.6 YMT shall return to Sponsor all reports/documents/data, including but not limited to the leftover/remaining consignments of any IPs, after the termination of this Agreement or as and when requested by Sponsor. However, one copy can be retained by YMT for archival/legal purposes.
- 11.7 Notwithstanding any other provision of this Agreement to the contrary, the parties acknowledge and agree that, except as set forth in this Agreement, any termination of this Agreement under Clause 11.1 that is without cause shall be without cost or penalty of any kind whatsoever to either party hereto.

ARTICLE 12: FORCE MAJEURE

- 12.1 A party shall be excused from performing its obligations under this Agreement to the extent its performance is delayed or prevented by any cause beyond such party's reasonable control, including, but not limited to, acts of God, fire, explosion, disease, weather, war, insurrection, civil strike, riots, terrorism, government action, or power interruption from supplier (a "Force Majeure Event") provided the affected party gives the other party prompt written notice of the occurrence of any Force Majeure Event and the nature and the extent to which the affected party will be unable to perform its obligations under this Agreement. The affected party agrees to use commercially reasonable efforts to correct the Force Majeure Event as quickly as possible, to perform its obligations under this Agreement to the extent feasible given the Force Majeure Event, and to give the other party prompt written notice when it is again fully able to perform its obligations. Performance shall be excused only to the extent of and during the reasonable continuance of such Force Majeure Event, provided that either party may terminate this Agreement if such Force Majeure Event continues for a period of forty-five (45) days or more. Any deadline or time for performance specified in this Agreement or the Protocol which falls due during or after the occurrence of a Force Majeure Event shall be automatically extended for a period equal to the period of the Force Majeure Event.

ARTICLE 13: LIABILITY AND INSURANCE

- 13.1 YMT shall secure and maintain in full force and effect throughout the performance of the Study, insurance coverage sufficient to cover its exposure for professional indemnity in the normal course of business and a separate Subject Insurance (including bodily injury and death).
- 13.2 Certificates evidencing such insurance will be made available for examination upon request by

Sponsor.

ARTICLE 14: PUBLICATION

- 14.1 Publications of the study shall be the sole and exclusive property of Sponsor.
- 14.2 It is understood that YMT shall not receive any royalty payment because of the sale of the marketing of the IP or any other product.

ARTICLE 15: INTELLECTUAL PROPERTY RIGHTS

- 15.1 All Sponsor's data and results of the Study shall be the sole and exclusive property of Sponsor. YMT shall not claim any right in the intellectual property right of the Sponsor. YMT shall execute all necessary documents that may be required for transferring intellectual property that may be created during the term of this Agreement for and at the request of the sponsor, in name of Sponsor immediately whether or not requested by the Sponsor

ARTICLE 16: ENTIRE AGREEMENT AND ORDER OF PRECEDENCE

- 16.1 This Agreement represents the entire understanding of the parties with respect to the subject matter of this Agreement. In the event of any inconsistency between the terms of this Agreement and the Protocol, the terms of this Agreement shall govern. Notwithstanding the foregoing, if the parties enter any Project Contract containing terms that conflict with either this Agreement or the Protocol, the terms this Agreement shall govern.
- 16.2 The parties have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any of the provisions of this Agreement. Except where the context otherwise requires, where used, the singular shall include the plural, the plural the singular, the use of any gender shall be applicable to all genders and the word "or" is used in the inclusive sense.
- 16.3 The captions of this Agreement are only for the convenience of reference.
- 16.4 All sums set forth in this Agreement and any Protocols or Project Contracts, or any appendices, exhibits or schedules hereto or thereto, are, and are intended to be, expressed in, and all payments required to be made under this Agreement shall be made in, Indian Rupees.

ARTICLE 17: ASSIGNMENT

- 17.1 This Agreement shall not be assigned by either party without the prior written consent of the other, to any third party, which consent shall not be unreasonably withheld or delayed, except that either party may assign its rights and obligations under this Agreement: (a) to an affiliate, division or subsidiary of such party; and/or (b) to any third party that acquires all or substantially all of the stock or assets of such party, whether by asset sale, stock sale, merger or otherwise, and, in any such event such assignee shall assume the transferring party's obligations hereunder. However, notwithstanding any such assignment, the transferring party shall remain liable under this Agreement (in addition to the transferee) unless such liability is specifically waived in writing by the other party hereto. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the parties hereto, and their respective successors and permitted assigns.

18.1 It is understood that this Agreement does not constitute YMT as the agent or legal representative of Sponsor for any purpose whatsoever, and accordingly, YMT is not authorized to assume or create any obligation or responsibility, express or implied, on behalf of or in the name of Sponsor.

ARTICLE 19: SEVERABILITY

19.1 The invalidity or unenforceability of any term or provision of this Agreement shall not affect the validity or enforceability of any other term or provision of this Agreement.

ARTICLE 20: NOTICE

20.1 All Notices given under this Agreement shall be in writing and shall be delivered either personally or sent by fax or mail (including a copy via email) to the parties at the addresses set forth below or to such other addresses as the parties may designate in writing and by fax/mail.

ARTICLE 21: WAIVER

21.1 No waiver of any term, provision, or condition of this Agreement whether by conduct or otherwise in any one or more instances shall be deemed to be or construed as a further or continuing waiver of any such term, provision, or condition or any other term, provision or condition of this Agreement.

ARTICLE 22: GOVERNING LAW-ARBITRATION

22.1 This Agreement shall be subject to and interpreted according to the Laws of the Republic of India. Any dispute/differences or claims under or in relation to this Agreement, including any question regarding its existence, validity or termination, shall be resolved as follows: (a) a meeting will promptly be held between the parties, attended by at least one person representing each party with decision-making authority regarding the dispute, to attempt in good faith to negotiate a resolution of the dispute; (b) if, within thirty (30) days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, then such dispute shall be resolved by either party submitting such dispute to binding arbitration conducted under the Indian Arbitration and Conciliation Act as amended from time to time. The Arbitrator has the right and authority to determine how the arbitral decision or award as to each issue and matter in dispute may be implemented or enforced. The Arbitrator shall be required to produce a written opinion setting forth the reasons for the decision or award made. The decision of most of such Arbitrator shall be binding and conclusive on the parties hereto. Judgment upon any decision or award may be entered in any court of competent jurisdiction. The parties agree that the existence of this arbitration provision shall not in any way limit the right or ability of the parties to obtain interim relief, including without limitation a temporary restraining order, preliminary injunction or decree, as may be necessary, to

protect either party against, or on account of, any breach or violation of this Agreement, in any court of law having jurisdiction thereof.

22.2 Arbitration proceedings will be held under the Indian Arbitration and Conciliation Act as amended time to time, by a Sole Arbitrator which shall be mutually appointed by the both parties with the Rules of the Indian Arbitration and Conciliation Act, then in effect. Arbitration proceedings shall be conducted in English language and venue of Arbitration shall be Mumbai.

ARTICLE 23: JURISDICTION

23.1 The competent courts at Mumbai shall have sole and exclusive jurisdiction in all matters arising out of or connected with this Agreement.

ARTICLE 24: GENERAL ANTI-CORRUPTION AND BRIBERY COMPLIANCE PROVISION

Neither Party shall perform any actions that are prohibited by local and other anti-corruption and bribery laws, specifically including Indian Prevention of Corruption Act 1988, U.S Foreign Corrupt Practices Act and U.K. Bribery Act (collectively "Anti-Corruption and Bribery Laws") that may be applicable to one or both Parties to the Agreement. Without limiting the foregoing, neither Party shall make any payments, or offer or transfer anything of value, to any government official or government employee, to any political party official or candidate for political office or to any other third party related to the transaction in a manner that would violate Anti-Corruption and Bribery Laws.

IN WITNESS WHEREOF, THE DULY AUTHORIZED REPRESENTATIVES OF THE PARTIES HERETO HAVE EXECUTED AND SIGNED THIS AGREEMENT AS ON THE DATE FIRST WRITTEN.
